## INSTRUCTIONS FOR OILING

To insure easy running the machine requires oiling and if used continuously it should be oiled each day. Raise the covers at each end of the balance wheel shaft, also the machine top cover plate and oil all oil holes and points of friction. Place a drop of oil in the holes marked "OIL" on the outside of the machine.

Use only "Singer Oil for High Speed Sewing Machines" (Cloth and Leather) for general use or "Singer Oil for High Speed Sewing Machines" where a stainless oil is desired.
